DESPERATE FIGHT.

Nine Times the Brave Japanese Charged the Fortified Heights at Kin Chou.

CARRIED AT BAYONET'S POINT.

The Most Terrible Hand to Hand Encounter That Has Thus Far Characterized the War.

The Jap's Left Throughout the Action Was Exposed to An Enflaming Fire From the Russian Infantry and a Gunboat.

Tokio, May 30.—The details of the fighting at Kin Chou emphasize the heroic tenacity of the Japanese in their conduct at Nanshan. Nine successive times the Japanese charged the fortified heights in the face of a storm of death dealing missiles and in their last effort they carried the forts and trenches only after a bayonet to bayonet conflict with the Russians, who made desperate despairing struggle to beat back the oncoming hordes.

The final assault of the Japanese in which they at last succeeded in taking possession was marked by the most desperate hand to hand encounter that has thus far characterized the war. The Japanese left, throughout the entire action until night, was exposed to an enflaming fire from the Russian infantry, a gunboat on Tallenwan bay and four 9-centimetre guns posted at Tafengchen. At a critical moment the ammunition of the artillery ran low and it was decided to cast the remaining ammunition into one final desperate assault.

Fortunately however at the moment this decision was reached the Japanese squadron in Kin Chou bay, which had ceased bombarding when the infantry had first moved forward, suddenly resumed the shelling of Nanshan. Then it was that the issues of the day were determined at a moment when the outcome was fluttering between success and defeat for Japan—at that moment was an almost certain repulse converted into victory so successful that the forces of the czar were swept into confusion and disorderly retreat. With every Japanese gun centering its fire upon the Nanshan forts and trenches, the Japanese infantry sprang over the bodies of the dead comrades who had sacrificed their lives in the previous fruitless charges. The entire line rushed forward toward the Russian left, where the fire of the Japanese squadron had proved most deadly and which was the first to weaken under the death dealing bombardment. And it was there that the first breach was made in the human stonewall that all day had been an invincible barrier to the impetuous assault of the brown men. It was the fourth division of the Osaka men that stormed the Russian left. It had once been said that Osaka men were not brave. It will never be said again.

The first division of Tokio, which had the center and the third division of Nagoya occupying the left and which had been exposed all day to the Russian fire against the front flank, now followed the example of the Osaka men and rushed forward and the battle became transformed from an artillery duel into one of personal conflict, with the bayonet as the instrument of warfare. On every parapet the restless, death-defying Japanese surged forward in increasing numbers and hustling the Russians from their intrenchments, swept over the hill. At 7:30 o'clock as the sun was sinking beneath the horizon the flag of the land of the Rising Sun floated above the blood sodden Nanshan hill, while the shouts of "Banzai" swelled from hill to hill and re-echoed from squadron to fort.

The Japanese paid for their victory in 3,500 killed and wounded. To the Russians humiliation of defeat was intensified by the loss of 68 cannon and 10 machine guns while lying dead in the fort and trenches were 500 men, the victims of the accuracy of Japanese long distance marksmanship and of close range fighting.

KENTUCKY-TENNESSEE FIELD.

A Big Increase in the Output of Oil Is Reported.

Lexington, May 30.—The Kentucky-Tennessee field shows 11 completions during the week, with a new production placed at 300 barrels. The best strike was made in Wayne county, in the Slickford division, and shows up for 100 barrels daily. Six other strikes were made in Wayne county. Knox county shows two completions and Cumberland county one.

In the upper developments a 20-barrel strike was made in Estill county, and a small producer came in in the Bath-Rowan division. Work in the latter field is almost at a standstill and the production has greatly fallen off.

A recent strike in Tennessee is attracting renewed interest toward the development of that state.

The runs from the Kentucky-Tennessee field for May will exceed those of April by over 30,000 barrels, principally the production of the lower field, in which some big producers were drilled in during the earlier part of the month.

SIXTY-YEAR-OLD WOMAN.

She Is Now Cutting Her Third Set of Teeth.

Owingsville, Ky., May 30.—Sixty-year-old Miss Maria Williamson, of this town, is attracting much attention because of a third set of teeth she is cutting. Two teeth have already made their appearance. She lost her second set of teeth several years ago and has since used false ones.

Recently on adjusting the plate she found that the new teeth interfered with the plate. Her grandfather, who died many years ago, cut a third set of teeth after he has passed his 60th year, and it is said that other members of the family had similar experiences.

For the New Capitol.

Frankfort, Ky., May 30.—The state capitol commission was in session for three days hearing architects from all over the country discuss their plans for the new state house. On Monday the commission will elect an architect, though his election does not mean that the plan he has submitted will be adopted. The commission wants an up-to-date building.

To Build a New Railway Line.

Madisonville, Ky., May 30.—It is now regarded as almost a certainty that Chicago capitalists will build a railroad from this city to Central City to connect with the Illinois Central, which is to penetrate the coal fields of Muhlenberg county and enter the mining field of Hopkins county.

Another Oil Well.

Sargent, Ky., May 30.—Another splendid paying oil well, Jones Well No. 7, came in Saturday, with a 200-barrel flow, in the Beaver creek oil field, south of here, on the Knott-loyd border. This is the property of the New Domain Oil and Gas Co., composed of Cincinnati capitalists.

DESTRUCTIVE FIRE.

Seven Freight and Coal Piers of the D. L. & W. Road in Jersey City Destroyed.

LOSS IS FIVE MILLION DOLLARS.

From 30 to 200 Small Boats and a Number of Freight and Coal Cars Were Burned.

Crossed Electric Wires in New Orleans Caused a Property Loss in Wholesale District Estimated at Half a Million Dollars.

New York, May 30.—Seven freight and coal piers of the Delaware, Lackawanna & Western railroad in Jersey City were destroyed by fire that started about 5 o'clock Sunday afternoon in pier 12 on which a lot of barrels of oil were stored. The flames spread rapidly. Pier 12 was 800 feet long and was soon ablaze its entire length and the firemen who were trying to fight the fire from the shore were able to accomplish but little.

The flames swept across to pier 11 and beyond, being finally checked at pier 5, which is a new coal trestle, steel framed and iron clad. Here the firemen and fire boats made a desperate stand and stayed the advance of the fire until the burning piers crumbled and fell into the water. Although there was but little wind, sparks fell all along the water front for the better of a mile, endangering the Lackawanna depot and even the Hamburg-American line and Bremen line piers, where the firemen were kept busy playing streams of water upon the buildings and over the ships at their docks.

The building of the Hoboken Coke Co., five blocks from the main fire, was set ablaze by burning brands but the firemen responded quickly and the building was only slightly damaged.

A number of canal boats and several tugs were burned, the loss of small boats being variously estimated at from 30 to 200.

The number of freight cars burned is not known, but on this class of rolling stock and on coal cars the loss will be heavy.

During the fire the Lackawanna moved its passenger coaches from its yard out to the Meadows and one train of a dozen box cars was hauled out of a burning pier and saved.

Piers 11 and 12 were full of general merchandise. Piers 7, 8, 9 and 10 were used for coal and pier 6 was a grain loading pier. The total loss is estimated at \$5,000,000.

New Orleans, May 30.—A fire caused by crossed electric wires did about half a million dollars damage Sunday. The Louis H. Rice saddlery factory, the Simmonds Manufacturing Co. and the Meigs, Brady & Lincoln woodenware establishment were destroyed and a half dozen others damaged. The fire was in the heart of the wholesale district and was well fought, being stopped short of two oil companies and several big drug establishments. Insurance \$350,000.

FIRE AT MONTGOMERY.

Cordage Plant Destroyed With a Loss of \$400,000.

Montgomery, Ala., May 30.—Fire destroyed the plant and warehouse of the Alabama Compress Co. here, entailing a loss estimated at \$400,000, which is practically covered by insurance. The plant is located in a suburb of Montgomery and about a mile from the nearest fire station. The blaze originated in the storage department and spread rapidly. Between the plant proper and the warehouse where was stored 4,600 bales of cotton was a parapet wall 20 feet high built for fire protection. The flames leaped this wall and the warehouse was ignited. A strong wind was blowing at the time and it was a matter of minutes to see that the flames could not be extinguished.

An \$80,000 Fire.

Bay City, Mich., May 30.—The Michigan Manufacturing Co.'s salt manufacturing and packing plant was totally destroyed by fire of unknown origin. Loss about \$80,000. The Michigan Manufacturing Co. is a Nelson Morris & Co. (Chicago) concern.

SENATOR QUAY FUNERAL.

Speaker Cannon Appointed a House Committee to Attend.

Washington, May 30.—Speaker Cannon has appointed the entire Pennsylvania state delegation as a committee to represent the house of representatives at the funeral of the late Senator Quay at Beaver, Pa., who died Saturday, Tuesday next. A special car will leave Washington at 7:15 p. m. Monday for the use of such members of the committees of the two houses of congress as may be in this city at that time. Other members will be met at Pittsburg Tuesday morning and the entire congressional party will proceed to Beaver by special train.

Harrisburg, Pa., May 30.—Gov. Pennypacker will leave Monday night for Beaver to attend the funeral of Senator Quay. The governor will Monday preside at the Memorial day exercises at Gettysburg. The state buildings have been draped in mourning for a period of 30 days out of respect to Senator Quay.

Beaver, Pa., May 30.—Many prominent people visited this place Sunday for the purpose of expressing sympathy to the family of the late Senator M. S. Quay, but only a few of the most intimate friends were permitted to view the remains of the dead man.

It was announced by the family that carrying out the senator's dying request there will be no ostentation in connection with the funeral. This compels the refusal of a request by the masons for a masonic funeral. The final arrangements made Sunday are that the body shall remain in the senator's bedroom where he died until Tuesday, when it will be carried to the First Presbyterian church in charge of Post 473, G. A. R., of which Senator Quay was a member, and lie in state from 9 a. m. until 1 p. m. The church will then be cleared and at 2 o'clock the funeral services will be conducted by Rev. J. S. Ramsey, pastor of the First Presbyterian church, assisted by Rev. Appleton Bash, D.D., of the Methodist Episcopal church. There will be no honorary pall bearers.

THE GILLESPIE JURY.

After 50-Hour Session It Disagreed and Was Discharged.

Rising Sun, Ind., May 30.—The jury of 12 good men and true, empaneled to try James Gillespie, Belle Seward and Carrie and Myron Barbour for the murder of James Gillespie's twin sister Elizabeth, has disagreed. At 10:30 o'clock Sunday, after it had been out for 50 hours, the jury was summoned to the courtroom and interrogated by Judge Downey as to whether or not it had agreed upon its verdict.

Ira Powell, the foreman, replied that it had not.

"Is there any possibility that you can agree upon a verdict?" asked the court.

"None whatever," replied Powell.

"Does this express the opinion of all of you?" inquired Judge Downey, addressing the jurors.

Each of the men nodded in the affirmative.

"Gentlemen," said the court, "it is unfortunate that our three weeks of hard work should result in a mistrial. I trust, however, that each of you has arrived at his decision through a serious consideration of the evidence as brought out at the trial and not because of ulterior reasons."

"I thank you for your conscientiousness with which you have performed your duty."

"Gentlemen, you are discharged."

The vote of the jurors stood five for conviction and seven for acquittal continuously through their long session. Eight ballots were taken and no votes were changed.

The vote applied to all the defendants, and no attempt to frame a compromise verdict on one or two of the accused was found to be possible.

CONVENTION OF ARMENIANS.

Delegates From All Parts of the United States Present.

Boston, May 30.—A convention of Armenians, attended by delegates from all sections of the United States where there are Armenian colonies, opened here Sunday. The object of the convention is to form an organization to promote the general welfare of Armenians in this country. Bishop Haysch Saradjian was chosen temporary chairman. An effort will be made to have the organization adopt a petition to be presented to the international peace congress setting forth the condition of Armenia for amelioration through the enforcing of existing treaties.

Louisville, Ky., May 30.—Oil has been struck on the Raglan road, three miles southeast of this city. The well is on the farm of Hall brothers, who have been prospecting for over a year, besides making ice cream in this city.

Judge George W. De Camp, now living at Emporia, Kan., was "the best man" at the wedding of James G. Blaine.

THE BOB-WHITES.

Department of Agriculture Has Been Making an Investigation of Their Economic Value.

ARE THE MOST USEFUL ON FARMS.

Experiments and Examinations Show That These Birds Consume Large Quantities of Weed Seed.

They Destroy Many of the Worst Insect Pests With Which Farmers Contend, and Do Not Injure Grain, Fruit, Etc.

Washington, May 30.—The ornithologists of the department of agriculture have been making an investigation of the economic value of the bob-white as a result of which it is now announced that that bird is "probably the most useful abundant species on the farms."

Field observations, experiments and examinations show that it consumes large quantities of weed seeds and destroys many of the worst insect pests with which farmers contend and it does not injure grain, fruit or other crop. It is figured that from September 1 to April 30, annually, in Virginia alone, the total consumption of weed seed by bob-whites amounts to 573 tons. Some of the pests which it habitually destroys, the report says, are the Mexican cotton boll weevil, which damages the cotton crop upwards of \$15,000,000 a year, the potato beetle, which cuts off \$10,000,000 from the value of the potato crop, the cotton worms, which have been known to cause \$30,000,000 loss in a year, the cinch bug and the Rocky Mountain locust, scourges which leave desolation in their path and have caused losses to the extent of \$100,000,000 in some years. The report urges measures to secure the preservation of the bob-whites in this country.

Discussing the prospects for the silk industry, Dr. L. O. Howard, the entomologist of the department of agriculture, in an official treatise, says:

"The department is justified in its initiatory effort to create the conditions for a constant supply of cocoons. It can keep up its reeling work and thus keep open practically the only market existing at present for a period which must be determined by the will of congress. The outlook for what we have termed a more natural market is problematical. There are many portions of the United States well adapted to silk raising, many places which might well become silk centers, where labor can be employed practically at rates comparable to those of Southern Europe. The establishment of a silk mill in such a location with its own flature attached with the surrounding people employed as operatives in both flature and mills and with the otherwise unoccupied members of their households engaged in silk raising in the spring, is feasible and can be made to pay. That in some of these ways the natural market will come seems possible and even more than possible. What the success of silk culture would mean to the United States is indicated by the importations of raw silk into the United States during the years 1892 to 1902.

AGAINST MONTEREY.

The Texas Quarantine Recently Established Still in Force.

Monterey, Mex., May 30.—Notwithstanding the quarantine recently established by the state of Texas against all Mexican points has been lifted, it is still in force against Monterey. This is due to the fact that the Texas authorities had received word to the effect that a case of yellow fever existed at Tampico and they refused to lift the embargo against Monterey unless a quarantine be put on against Tampico. Gen. Reyes, upon inquiry, states there is no yellow fever at Tampico and says he will not be justified in placing a quarantine against that city.

THE PRESIDENT'S DAUGHTER.

Police Were Needed to Control the Curious Crowds at St. Louis.

St. Louis, May 30.—A detachment of police was needed at the First Presbyterian church Sunday to control the curious crowd that assembled to see Miss Alice Roosevelt pass into Sunday's service. So unostentatious was Miss Roosevelt's departure after the service that but few recognized her and nearly 100 women stood for half an hour in the rain thinking she was still in the church. In his invocation Rev. W. J. McKittrick, the pastor, prayed for Divine guidance for the president.

New York, May 30.—Mrs. Laura Joyce Bell, the comic opera singer and wife of Digby Bell, died Sunday,

Call For Democratic Mass Convention.

Pursuant to the call of the Democratic State Central Committee, the Democrats of Mason County are notified to meet in mass convention at the court house, Maysville, at 2 o'clock p. m., Saturday, June 4th, 1904, to select delegates to the state convention in Louisville Wednesday, June 8th, 1904, which latter convention will choose delegates to the National convention.

J. R. ROBERTSON,
Chairman Mason County Executive Committee.

It is reported from Washington City that Mormon Smoot can keep his seat in the Senate if he holds Utah in line for the Republican electoral ticket this fall. Anything to win, seems to be the motto of the present administration.

The Columbus Citizen, in sharp thrusts at the work of the Ohio Republican State convention, said the platform "is as colorless as a goose feather in a snowdrift," the nomination of Laylin for third term for Secretary of State and State Supervisor of Elections, "is a tribute to his usefulness to the Republican machine," and "means nothing else;" that George B. Cox is described as "sitting like a sphinx in the convention;" in the original Egyptian the word sphinx is written "stoughton bottle."

CONGRESSMAN LIVINGSTON, of Georgia, expresses amazement at the cold-blooded way in which Republicans consider public questions. "They seem to regard every conceivable subject from a party standpoint," says Mr. Livingston. "Reminds me of a story they tell about a New York drummer who died suddenly in an Atlanta hotel. The Coroner telegraphed to his firm, saying: 'Your representative died here to-day. I await your instructions.' In a few hours this answer came back: 'Search his pockets for orders. Express his samples to New York. Give the body to a medical college.'"

TRUE DEMOCRATIC RING

To Congressman Kehoe's Declaration on State Chairmanship—Party Should Control Committee and Not Committee the Party.

Senator McCreary, Congressman Kehoe and a number of other political leaders held a conference at Lexington Friday night to further the candidacy of Mr. Kehoe for Chairman of the State Central and Executive Committees. After the meeting, Mr. Kehoe stated he was in the race to stay, which sets at rest all doubts as to his candidacy for the Chairmanship. In an interview he said:

"Yes, I am a candidate for Chairman of the State Committees and if elected two things may confidently be expected from the organization—it will be fair, and win.

"I am in favor of the people electing all committeemen after due notice of the time and place of election, and opposed to vesting any person or set of persons with the power of removal and appointment of committeemen. I believe the party should control the organization, and not the organization the party.

"I am opposed to all Democratic nominee-making machines, and want our nominations made by the majority of the voters of our party and every candidate to have an equal chance and fair count.

"Having served as Precinct, County and District Chairman, I fully realize the necessity for a practical party organization and shall do my best to secure same, but it must be such as will be entitled to and have the confidence and esteem of Democrats, the fear of Republicans and the respect of all fair-minded people."

Mr. Kehoe has made a canvass through Northeastern Kentucky and said that everything is satisfactory to him and that from reports he had from all parts of the State his election is assured.

WEDDED IN CINCINNATI.

Mr. Will H. Jones and Miss Katharine Daulton Happily Married Saturday Afternoon.

Mr. Will H. Jones and Miss Katharine B. Daulton gave their friends a pleasant surprise Saturday. They were among the happy crowd that left here Saturday morning on the excursion to Cincinnati. The couple have been devoted sweethearts some time, and they concluded to take advantage of the trip to the Queen City to be quietly married. On their arrival there, all preliminary arrangements were soon made, and at 3 o'clock Saturday afternoon, in the presence of a few relatives and intimate friends, the couple were united in marriage by Rev. A. H. Harunot of the Central Christian Church, the ceremony being solemnized at the latter's residence.

The bride is the oldest daughter of City Clerk and Mrs. J. L. Daulton and is one of the city's most estimable young ladies. The groom has a position with the Keith-Schroeder Harness Company and is an industrious young man of exemplary character. The many friends of this worthy young couple unite in wishing them a happy and prosperous life.

The storm that struck this city Sunday afternoon was accompanied by a heavy fall of hail in the West End that proved quite destructive to vegetation. Up to this morning nearly an inch and a half of rain fell.

THE TOBACCO MARKET.

Cincinnati Warehouses May Have to Close Their Doors For the Summer.

CINCINNATI, May 28th.—It was supposed that last week's light market was the record for scant offering, but that record was again lowered this week, and the market has dwindled down now to such small proportions that it seems as if the warehouses will be forced to close their doors for the summer and until the new crop begins to come forward in December next.

The total offerings this week were but fifty-six hds, of which thirty-one hds were of the new crop of tobaccos and twenty-five hds of the old.

The quality of the new was generally inferior and the condition poor, much of it being in soft order and showing the need of rehandling. A few packages of medium and good leaf were scattered through the warehouses, selling at 12½¢ to 17½¢.

The few hds. of old tobacco sold were a little better in quality, the greater portion ranging from 10½¢ to 17½¢.

The independent manufacturers and redriers were the principal purchasers, the combine buyers being out of the market.

Whatever of new tobacco is left in shippers or growers hands will be held back now for redrying, and the last remnants of the old crop (1902) will soon disappear in the market.

Breathe Hyomei Three or Four Times Daily and Be Cured of Catarrh.

J. James Wood & Son, one of the most reliable business firms in Maysville, have seen many instances of the remarkable power of Hyomei to cure catarrhal troubles and other disorders of the respiratory organs.

Results in this treatment have given them so much confidence in Hyomei that they will give a month's trial with the positive understanding that if at the end of that time a cure is not effected or enough relief gained to warrant a continued use of the treatment for a while longer, the money will be refunded.

Hyomei is the only treatment for catarrh that has ever been sold under a "no cure, no pay" plan, and the only one where a month's trial treatment is free unless it cures.

Hyomei is not a pill or liquid. Just breathe it through the neat inhaler that comes with every outfit, and benefit will be seen from the first day's use. Breathed in this way, the health-giving Hyomei penetrates to the minutest air cells of the lungs, and drives catarrhal germs and poisons from the system.

The complete outfit costs but \$1, and extra bottles of Hyomei may be obtained for 50c.

Remember that if Hyomei does not cure you after a month's trial, J. James Wood & Son will refund your money and the treatment will be absolutely free.

ANOTHER FEATHER IN OUR HAT.

When we moved to Maysville three years ago we were told that the reason Maysville could not sell lots of dry goods and nice goods that most everybody in town did their shopping in Cincinnati (from the stocks that were carried here then we could not blame them). Then the merchants of Maysville use to line up on Market street every night when the 8 o'clock train arrived to see the people pass by with their arms full of packages. We knew the remedy and applied it. The best stock in Northern Kentucky is here and Maysville's trade is with us,—in fact it's a rare sight to see a lady with a package from Cincinnati. The C. and O. R. R. has bowed its head in defeat. We have inside information that after June 5th there will be no more 8 o'clock train. ALL HAIL MERZ BROS., Maysville's greatest institution.

TWO MORE WEEKS

Plenty of free attractions, plenty of best that money can procure, plenty of music and in fact nothing has been left undone to make this one of the biggest happenings that Maysville has ever had.

DEATH'S HARVEST.

Mr James Parker Died Suddenly Saturday While Visiting at Lewisburg—Mrs. Ebenezer Thompson Succumbs to Paralysis—Mr. Louis Cook Passes Away.

Mr. James Parker of the Fifth ward, an employe of the James H. Hall Plow Company, was stricken with heart disease Saturday at 10 o'clock at Lewisburg and expired almost instantly. He had gone to Lewisburg to visit relatives and was in a blacksmith shop talking to some friends when the fatal attack came.

Mr. Parker was a son of John Parker and was born and raised near Orangeburg. He was about forty-five years of age and leaves one brother, five sisters and many other relatives in this city and county. He was an industrious citizen and a faithful worker in the Second M. E. Church, South.

The remains were brought to his home Saturday evening and the funeral took place this morning at 10 o'clock at the above-named church, Rev. H. E. Roseberry officiating. He had been a cripple since he was three years old, and for the past fifteen or twenty years had not been able to leave his home without assistance. "Louie," as he was familiarly known by the older citizens, had almost been forgotten he had been confined to the house so long. His years of suffering was borne with patience during his long confinement, and death was no doubt welcomed as a relief.
